NORTHWIND

How Globex cut onboarding time by 63%

A customer story from Northwind Systems

Customer story · 2026

The challenge

Globex was onboarding 400 new customers a quarter with a team of six. Every account needed a custom setup call, a data migration and a week of hand-holding, and the backlog kept growing.

The solution

- **Guided setup.** A self-serve wizard replaced the first two calls for 80% of accounts.
- **One-click migration.** Customers import their data from a spreadsheet or their old tool in minutes.
- **Success playbooks.** Automated check-ins nudge the accounts that stall before they churn.

The results

63%
faster onboarding

2.1x
accounts per CSM

94%
satisfaction score

“We went from drowning in setup calls to onboarding customers while we sleep.”

— Priya Raman, VP Customer Success, Globex
